

Greg Black's Mouthpieces are considered one of the best mouthpiece brands in the world. They are the only mouthpieces I personally use.

24 Greg Black Mouthpiece models are available to "test-drive." All mouthpieces will be available for the entire time the exhibit room is open (12-5pm). This is an opportunity for trombonists to try-out mouthpieces so they know what they'd like to order from Greg Black.

The mouthpieces at the exhibit will be available for purchase on a first come, first serve basis, but purchasers will not be able to take the mouthpiece until the exhibit room is closed.

The purpose for this stipulation is so that anyone who wants to test a specific model can do so throughout the duration of the event.

Models Available for Testing:

(Symphony Tenor/Bass/Alto/Small Bore Tenor)

Go to <https://www.gregblackmouthpieces.com/> for mouthpiece specs.
